

“It may seem difficult at first, but everything is difficult at first.”

Musashi, philosopher

6 TIMES TABLE WORKSHEET

Help the moon by drawing a line connecting the multiplication sum with the correct answer

A large, smiling yellow crescent moon is the central focus. A thin black line starts from the equation $6 \times 2 =$ on the left and points to the number 12 inside a star on the moon's face. Surrounding the moon are several yellow stars, each containing a number. The numbers are: 72, 60, 24, 18, 6, 36, 54, 42, 66, 48, and 30. The multiplication problems are listed on the left side of the page.

$6 \times 2 =$

$6 \times 11 =$

$6 \times 5 =$

$6 \times 4 =$

$6 \times 7 =$

$6 \times 6 =$

$6 \times 12 =$

$6 \times 8 =$

$6 \times 9 =$

$6 \times 1 =$

$6 \times 10 =$

$6 \times 3 =$
